PARIS

Second-year student at ESCE

Subject: Application for a 6-month internship

Dear Sir/Madam,

Currently in my second year at business school, I am writing to apply for a **six-month** internship as part of my studies. This **mandatory** internship can begin between May and September 2025, and must be completed by early March 2026. It represents a key step in my education, allowing me to develop my skills and gain practical business experience.

I am still exploring which area of international business I would like to pursue after graduation. That is why I am particularly interested in this internship, as it would allow me to gain a better understanding of your industry and could potentially lead to my future career.

As outlined in my CV, I have already acquired various skills that I would like to contribute to your company. Last summer, I worked as a camp leader, where I was responsible for a group of children. This experience allowed me to strengthen my organizational skills, sense of responsibility, and communication skills with both parents and colleagues.

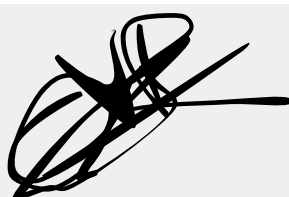

During my studies, I have learned to analyze and solve problems through project management and economics courses. I am motivated, organized, and determined to actively contribute to your projects.

I am confident that my organizational skills, teamwork spirit, and adaptability will be assets to your company. I would welcome the opportunity to expand my knowledge and support your team.

I remain at your disposal for any further information. Thank you in advance for considering my application, and I would be delighted to discuss further during an interview.

Sincerely,

Vanina PERY
